ZITHA TECH SPECIALTY CABLES (Pty) Ltd

2-point score display device

Overview

Digital Score Keeper for Sports Games Shop digital score keepers for basketball, volleyball, golf, and more. Portable, electronic, and easy-to-use Scoreboa.

Key Takeaways

A 2-point score display device is a digital or electronic scoreboard designed to track and display scores for two players or teams, often featuring real-time updates, remote control, and app integration.Types of 2-Point Score Display Devices

1. Arduino-Based DIY Scoreboards Devices like the DuoScore use an Arduino microcontroller with a 16x2 LCD display to track scores for two players. Features include:

• Player switching with a dedicated button

• Real-time score tracking

• Reset and loading animations

• Interactive interface with minimal delay

• Points can be added individually for each player This type is ideal for hobbyists or custom setups for board games or small indoor sports . 2. Pre-Assembled Digital Scoreboards Products like the 2.3-inch SCORE4 digital scoreboard come fully assembled with two-digit displays for each player. Key features:

• RF or Bluetooth control via remote or app

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Up and down counters for each player

• Persistent score display even if Bluetooth disconnects

• Easy integration on a wooden board or sports setup

• Compact and portable, powered by 9V supply This option is suitable for indoor games and small sports arenas . 3. App-Controlled or Online Scoreboards Platforms like ScoreLeader or Scoreboardz allow users to create a virtual 2-player scoreboard on any device with a browser. Features include:

• Real-time score updates across multiple devices

• Undo and reset functions

• Customizable player names and score limits

• No hardware required, ideal for online or casual games These solutions are flexible and accessible for both personal and tournament use . 4. Sport-Specific Digital Scoreboards Devices like WeScore Padel are designed for specific sports but can track two-player scores efficiently. Features include:

• Wireless sensors to register points automatically

• Compact, lightweight design for easy installation

• Adjustable scoring modes (sets, advantage, golden point)

• Remote control for referees or spectators This type is particularly useful for competitive or recreational sports where automated scoring improves gameplay experience .

Choosing the Right Device

When selecting a 2-point score display device, consider:

• Purpose: casual games, indoor sports, or competitive tournaments

• Display type: LCD, LED, or app-based

• Control method: buttons, remote, or smartphone app

• Portability: lightweight and easy to mount

• Power source: battery, USB, or mains These devices provide a convenient and accurate way to track scores for two players or teams, enhancing gameplay and reducing manual errors.
