ZITHA TECH SPECIALTY CABLES (Pty) Ltd

288odf patch panel installation cabinet

Overview

The cabinet is made of glass fibre reinforced plastic material with ultra-violet protection for outdoor application. • Total Fiber Management Systems • Space for excess patch cables • High Density • Splice and patch in one tray • Cater for all connector typeBelden's DCX Optical Distribution Frame (ODF) Cabinets are fully configurable, front access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber cross-connect. They protect connections with a lockable DCX CABINET 10-HOUSING 84x36x15, LEFT-RIGHT. • Compact Design: The mini ODF (Optical Distribution Frame) is designed to be compact and wall-mountable, saving space and allowing for easy installation in various locations. • High Fiber Capacity: With a capacity of 288 fibers, the ODF can accommodate a large number of fiber connections, making. Fiber distribution cabinet is used outdoors trunk interface device connecting to the cable and distribution cable,and can provide the connection between backbone cables and wiring cable. It can achieve adirect connection and cross-connect between the trunk cable and wiring cable with the function of. The 288 port fiber patch panel ODFL288LC is a rack mountable fiber patch and splice panel designed to accommodate up to 288 terminations/splices. The ODFL288LC provides a compact and versatile method of splicing and connectivity. Standard panels are available in loaded and unloaded versions.
