ZITHA TECH SPECIALTY CABLES (Pty) Ltd

4-core custom-made American fiber optic distribution box

Overview

This box integrates fiber splicing, splitting, distribution, storage, and cable connection into a single unit. The user cable terminal box mounted on the wall, whose function is to provide fiber transfer of welding and optical. The Fiber Optic Distribution Box is a multifunctional termination point to connect feeder cables with drop cables in FTTX communication network systems. The JUNPU 4 fiber drop box is a light and compact wall-mountable enclosure for the termination of up to four fibers. It has been designed to serve as a building entry point for FTTH applications but is also a perfect choice for all types of FTTX applications. The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems.
