Overview

How Much Do Fiber Patch Cords Cost?

OEM & Bulk Pricing BreakdownUnderstand fiber patch cord pricing from a B2B perspective. Learn how OEM production, volum.

Key Takeaways

Fiber optic patch cords for surveillance are moderately priced, typically ranging from $5 to $50 per cord depending on type, length, and quality.Typical Price Ranges

The cost of fiber optic patch cords varies widely based on several factors:

• Length: Shorter cords (1–3 meters) are generally cheaper, while longer cords increase linearly in cost .

• Fiber Type: Single-mode (OS2) cords are usually less expensive per foot than multimode (OM3/OM4) cords, but multimode is often preferred for high-speed surveillance networks .

• Connector Type: LC-LC, SC-SC, or MPO/MTP connectors affect pricing. High-precision connectors like MPO/MTP for multi-core applications are more expensive due to alignment and polishing requirements .

• Jacket and Armoring: LSZH jackets for indoor use are cheaper, while armored cords for outdoor or harsh environments can cost 20–50% more . For example, a 3-meter LC-LC OS2 patch cord can cost anywhere from $5 to $20, while high-performance multimode OM3/OM4 cords or armored versions may range from $25 to $50 or more . Bulk orders or OEM purchases can reduce unit costs, especially for large surveillance installations.
Factors Affecting Cost
• Quality and Testing: Cords that meet rigorous standards with insertion loss (IL) and return loss (RL) testing, 3D interferometer measurements, and end-face inspections are priced higher .

• Application Environment: Outdoor surveillance setups may require armored or UV-resistant jackets, increasing cost .

• Regional Variations: Prices can vary by region due to local standards, building codes, and procurement practices .
Summary

While fiber optic patch cords are not prohibitively expensive, high-quality, pre-terminated, or armored cords for surveillance can be moderately costly, especially for longer runs or multi-core setups. For typical surveillance applications, expect to pay $5–$50 per cord, with bulk purchases offering potential savings .
