Australian Optical Cable Joint Box

Overview

Riteoptic fiber optic cable joint box provides optical, sealing and mechanical strength of the continuity between adjacent fiber optic cable connection protection device.

Key Takeaways

The ADSS/OPGW metal junction box is also called a splicing box that is designed to house the fiber core splices to the outdoor intermediate optical cable leading to the patch panel in the control room. Kit ContentsThe kit comprises of an adaptor faceplate and adaptors. According to the structure can be classified into the dome (vertical) and horizontal (half) two kinds of cable splice closure. The increasing number of services available via optical fibre (Broadband Internet, VoIP, Video on Demand, High Definition IPTV) and the need to provide higher bandwidth capability is leading network operators to replace copper wire networks with optical fibre deeper into the last mile and closer to. There are 56 products. Heatshrink seals, splice cassettes and mounting kits. Downlead cushions and storage reels for OPGW applications. An assembling plate trays is placed inside the box.
