ALKOMED Engineering Services W.L.L. specializes in the installation, testing, and commissioning of low-voltage and 11kV electrical power distribution systems. They provide services for both statutory utility providers and private developers, including new builds, reinforcement, upgrades, maintenance of power transmission and distribution networks, street lighting, and emergency repairs. ALKOMED is a Grade A registered contractor in Bahrain, ensuring compliance with local standards and high-quality project execution . BICC MET WLL, a joint venture promoted by Ducab, has been established in Bahrain since 1995. They act as stockists and dealers for a complete range of cables and accessories, providing high-quality products supported by strong logistics capabilities in the region. Their focus is on delivering superior products and meeting customer requirements efficiently . Amad Baeed Electrical W.L.L. offers over 26 years of experience in electrical, mechanical, and telecommunication solutions across Bahrain and Saudi Arabia. With a workforce of over 300 employees and a portfolio of more than 400,000 products, they support major projects and multinational clients, providing end-to-end solutions in low-voltage systems . AMPS W.L.L. is a premier technology integrator and solution provider for electronic low-voltage systems in Bahrain, established in 1989. They specialize in building management systems (BMS), fire protection systems, and system integration, delivering cutting-edge technology for monitoring and controlling electrical systems in commercial and industrial buildings .

Summary

These companies collectively cover the full spectrum of low-voltage cable management in Bahrain, from supply and distribution of cables and accessories to installation, testing, commissioning, and maintenance of electrical and telecommunication systems. Depending on project requirements, clients can choose between companies focused on infrastructure and utility projects (ALKOMED), product supply and logistics (BICC MET), comprehensive project solutions (Amad Baeed), or advanced electronic low-voltage integration (AMPS W.L.L.), .
