Belize Stainless Steel Distribution Box Specifications

Overview

Stainless Steel Electrical Distribution Boxes,Stainless Steel Wall. Looking For High Quality Waterproof Power Distribution Boxes?

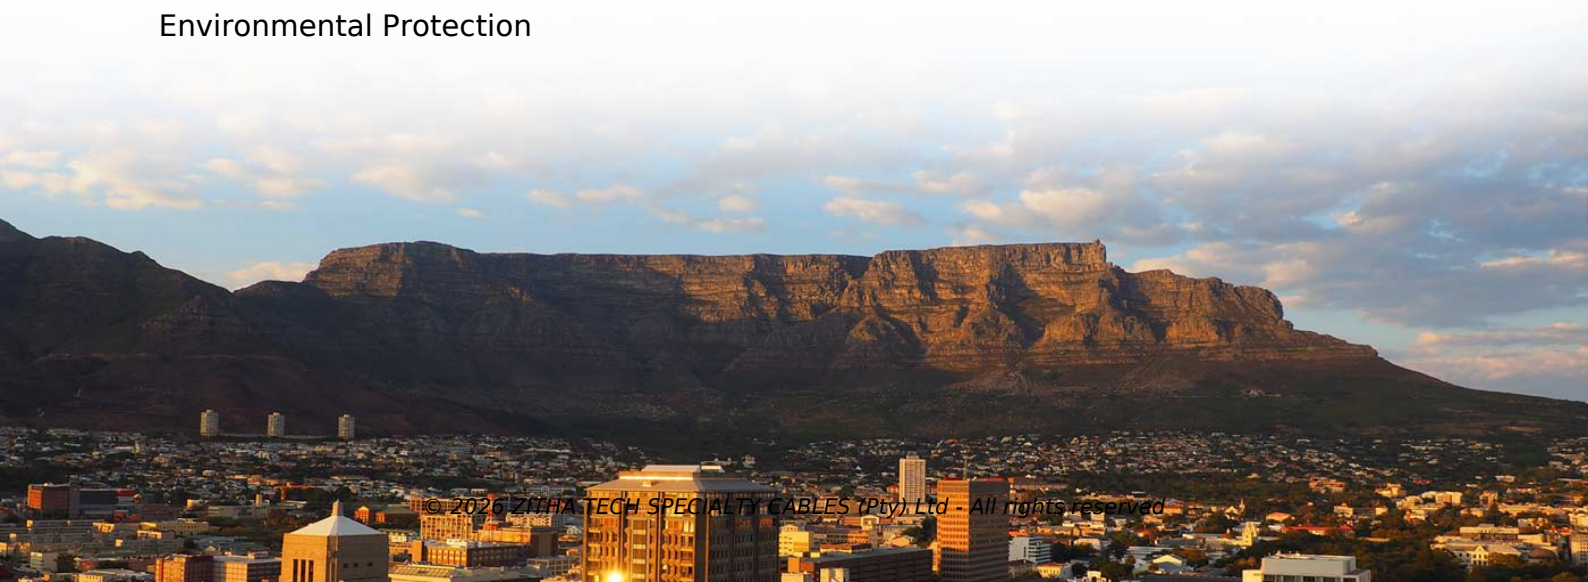

As A Professional Indoo.

Key Takeaways

Stainless steel distribution boxes in Belize are typically constructed from 201, 304, or 316 stainless steel, offering high corrosion resistance, IP66/67 protection, and suitability for harsh industrial and outdoor environments.Material and Construction

These distribution boxes are made from high-quality stainless steel, including grades 201, 304, and 316, which provide excellent resistance to corrosion, impact, and extreme weather conditions, making them ideal for coastal or industrial areas in Belize (EPCOM, VIOX, BARTEC). Some models also use carbon steel with protective coatings for added durability (SKKBO) .

Environmental Protection

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Most stainless steel distribution boxes feature IP66 or IP67 ratings, ensuring protection against dust, water ingress, and harsh environmental conditions. Certain models are also NEMA 4X certified, providing additional protection against corrosion and outdoor exposure (SKKBO) . These enclosures are suitable for Zone 1, 2, 21, and 22 hazardous areas, making them compliant with industrial safety standards (BARTEC) .

Design Features
• Hinged, lockable doors with secure sealing for safety and tamper resistance (EPCOM) .

• Modular and user-friendly designs with quick-access panels for easy inspection, maintenance, and repairs (VIOX) .

• Internal mounting plates, PE connections, and wall attachment straps for flexible installation (BARTEC) .

• Customizable sizes and configurations, including OEM/ODM options, to meet specific project requirements (SKKBO, Atex Delvalle) .
Applications

These distribution boxes are suitable for a wide range of applications, including:

• Industrial and manufacturing facilities

• Outdoor electrical installations

• Photovoltaic and solar power systems

• Coastal or high-humidity environments

• Hazardous areas requiring explosion protection (Atex Delvalle) .
Additional Features
• Corrosion-resistant pole brackets for mounting in utility or telecommunication networks (EPCOM) .

• Flame-retardant materials to enhance safety in case of electrical faults (VIOX) .

• Customizable internal layouts for accommodating circuit breakers, terminal blocks, and other electrical components (SKKBO, BARTEC) . In summary, stainless steel distribution boxes available in Belize are robust, corrosion-resistant, and highly adaptable enclosures designed to protect electrical systems in demanding environments. They offer a combination of durable materials, high IP/NEMA ratings, flexible installation options, and safety features, making them suitable for both industrial and outdoor applications.
