Brunei AI Artificial Intelligence Server

Overview

8 December 2025 - Unified National Networks Sdn Bhd (UNN), in partnership with EVYD Technology Sdn Bhd, has successfully deployed high-performance AI GPU servers at its Colocation Hosting facility, marking a significant milestone with the launch of Brunei's first national AI. 8 December 2025 - Unified National Networks Sdn Bhd (UNN), in partnership with EVYD Technology Sdn Bhd, has successfully deployed high-performance AI GPU servers at its Colocation Hosting facility, marking a significant milestone with the launch of Brunei's first national AI. Connect with entrepreneurs, researchers, policymakers, and innovators shaping the future of artificial intelligence in Brunei Darussalam. AI literacy and capacity-building by connecting key communities to build an inclusive AI ecosystem in supporting Wawasan 2025. Built on our EVYDENCE Data Platform, the infrastructure aims to provide secure, reliable. Brunei's 2025 AI roadmap balances innovation and safeguards: AITI's seven voluntary principles plus PDPO 2025 (enacted Jan; penalties up to BND 1,000,000 or 10% turnover) guide pilots across healthcare and government. BruHealth logs ~63% weekly users; population ~460,000. Priorities: governance. The Guide on Artificial Intelligence (AI) Governance and Ethics for Brunei Darussalam is a principles-based practical guide developed by the Authority for Info-communications Technology Industry of Brunei Darussalam (AITI) in collaboration with the AI Governance and Ethics Working Group.
