Brunei Cable

Overview

Brunei's international connectivity is governed by three submarine cables—SEA-ME-WE3, the Asia-America Gateway (AAG), and the Southeast Asia-Japan Cable (SJC)—all under UNN. Terrestrial fibre optic cables connect these Bornean States to Brunei cable landing stations which then provide direct connectivity to 9 international destinations, namely Singapore. When you surf the Internet, you access a variety of platforms including YouTube, Netflix, Instagram – these are all 'content. ' These content needs to be accessed from somewhere, in most cases, from the US or China region. However, now, these content are being hosted much closer to our region. The Submarine Cable Map is a free and regularly updated resource from TeleGeography. Explore cable routes, landing stations, system status and infrastructure updates. It is operational since 2017 and privately owned by Common Tower Technologies Sdn Bhd. * additional data available as part of our Services. Labuan-Brunei Submarine Cable (LBC).
