ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Can wire mesh cable trays be used in a workshop

Overview

The short answer is when you need a more flexible, cost-effective, and lightweight solution that still gets the job done efficiently. One of the most versatile solutions available is the wire mesh cable tray, which provides flexibility, ease of installation, and excellent airflow for your cabling infrastructure. Useful, yes, but mostly limited to IT rooms or small control setups. What Changed in the Way. A wire mesh cable tray, also called a wire cable tray or mesh cable tray, is a type of cable support system used to route and protect electrical and communication cables. It supports and protects electrical, data, and. The E-Line TLS series Wire Mesh Cable Tray systems allow easy cable exit through the spaces in the mesh structure—downward, to the right, or to the left. Think of it as a strong, open basket made from stainless steel wires welded together.
