ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Comoros Telecom Fiber Optic Cable Tender

Overview

Comoros Telecom Tenders, Bids & RFPs 2026 TendersOnTime, the best online tenders portal, provides latest Comoros Telecom tenders, RFP, Bids and eprocuremen.

Key Takeaways

Currently, there is no publicly listed active fiber optic cable tender for Comores Telecom, but opportunities may arise as part of the company's ongoing restructuring and partial privatization.Current Context

Comores Telecom (CT), the state-owned telecommunications operator in Comoros, is undergoing a partial privatization process approved by the Government of Comoros in June 2025. This initiative aims to restructure CT, improve its financial viability, and enhance the management of its fiber optic submarine cables, including FLY-LION 3 and EASSy . The restructuring involves asset valuation, debt management, and collaboration with transaction advisors, which may lead to future tenders for network expansion, fiber optic deployment, or related services .

Tender Opportunities

While no specific fiber optic tender is currently published, businesses can monitor telecommunications procurement portals for Comoros, such as:

• GlobalTenders: Aggregates tenders from official Comoros authorities and provides eligibility and submission guidance .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• TendersInfo: Offers sector-specific telecommunications tenders, including e-procurement and international bidding opportunities .

• BidDetail: Provides real-time updates on Comoros Telecom tenders, RFPs, and RFQs, with support for navigating complex bidding processes . Companies interested in participating should register on these platforms, check eligibility criteria, and prepare documentation in advance to respond quickly when tenders are announced.
Strategic Considerations
• The partial privatization of CT may open opportunities for private sector participation in fiber optic infrastructure projects.

• Past projects under the Regional Communications Infrastructure Program (RCIP-4) included international connectivity expansion and broadband coverage, indicating that future tenders may involve both domestic and international contractors .

• Monitoring announcements from Comores Telecom's official website can provide updates on upcoming projects and tenders .
Recommendations for Bidders
• Stay updated on tender portals and Comores Telecom announcements.

• Assess eligibility based on technical capacity, financial stability, and prior experience in fiber optic projects.

• Prepare bid documents in compliance with Comoros procurement guidelines.

• Engage with local partners if required, as some tenders may have domicile or experience restrictions. By following these steps, companies can position themselves to participate in future fiber optic cable tenders as Comores Telecom advances its network modernization and privatization efforts.
