ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Distribution Box AIS

Overview

Air Insulated Switchgear (AIS) is a cost-effective and modular medium-voltage solution designed for reliable power distribution up to 24 kV. Engineered for universal installations, it meets the highest standards of operational safety, system efficiency, and network reliability. Equipped with one powerCON TRUE1 input and five powerCON TRUE1 outputs, the new LV-NM5F box offers a current carrying capacity of up. Hitachi Energy focuses on the continual development of new technologies to increase the eco-efficiency, availability and reliability of AIS substation products and has a century of practical experience to rely on. AIS primary substation equipment contains of a portfolio up to 1100 kV, including. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS.
