ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Double-door large distribution box

Overview

Front and rear access in a single cabinet — engineered for high-density control panels, large switchgear assemblies, and installations where internal depth demands dual-door configuration. Available in stainless steel, carbon steel, and FRP with NEMA 4X and IP66 ratings as. A double door distribution board, also known as a double door consumer unit or distribution box, is an electrical enclosure used to house the electrical wiring and protective devices for a building's electrical system. When maximum internal space and unrestricted access are required, choose from our extensive range of Double Door Floor Standing Enclosures. This collection features large cabinets and electrical kiosks in both durable GRP and high-strength Steel, all designed to be installed directly on a ground. E-abel's stainless steel double-door distribution box is engineered specifically to close this gap. This article. Body – Folded and seam welded. Four 9mm diameter holes for wall fixing.
