Eurofiber is a major provider of fiber-optic connections with over 70,500 kilometers of network across the Netherlands and neighboring countries, focusing on high-quality, reliable, and flexible fiber services for businesses and organizations . LeadCom Fiber Works specializes in fiber optic cable solutions such as FTTH, FTTB, FTTC, and long-haul backbones. They provide design, splicing, testing, and project management services, making them a key player in both manufacturing and installation . OpticalConnect is a family-owned company with over 30 years of experience, focusing on the energy and industrial sectors. They offer fiber installation, fusion splicing, OTDR testing, network troubleshooting, and customized training, emphasizing quality and safety standards like ISO9001 and VCA* . LGCE supplies fiber optic cables and FTTH systems to major Dutch operators, including Reggefiber, CIF, and KPN. They provide pre-assembled products, cable markers, logistics support, and technical advice, ensuring efficient installation and network management . Genexis develops innovative fiber broadband solutions, including optical network units (ONUs) and devices for FTTH installations, supporting interoperability and robust connectivity for service providers and end-users .

Specialized Manufacturers

FibreMax focuses on advanced aramid fiber cables, offering high-strength, durable solutions suitable for extreme conditions, while TReNT Glasvezel provides dark fiber networks for scalable and secure connectivity .

Summary

The Netherlands hosts a strong fiber optic industry with companies that combine manufacturing, installation, and network management expertise. These firms cater to residential, commercial, and industrial sectors, providing solutions ranging from FTTH and FTTB networks to long-haul backbones and dark fiber infrastructure. Many also emphasize sustainability, safety, and compliance with EU standards, making them reliable partners for digital infrastructure projects .
