ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Electric Well Cable Tray Prices

Network Cabinet & Rack

Overview

Cable Tray & Accessories WBT Performance Cable Tray, Shaped 4"X8"X118", Pregalvanized. Provides optimal support for high-performance data cable, up to Cabl.

Key Takeaways

Electric cable tray prices vary by type, material, and size, with standard hot-dip galvanized ladder trays typically priced per 2.4-meter section.Price Overview
• Hot-dip galvanized ladder-type cable trays: Prices are generally based on a standard length of 2.4 meters. Fittings and accessories are priced per piece or unit, depending on the configuration and installation requirements .

• Wire mesh cable trays: Constructed from welded steel wire, these trays are designed for fast installation and heavy-duty support. Prices vary depending on width, length, and load capacity .

• Solid or perforated metal trays: Made from steel or aluminum, these provide high load-bearing capacity and corrosion resistance. Pricing depends on material, finish (galvanized, stainless steel), and dimensions .

• Plastic or halogen-free trays: Lightweight and corrosion-resistant, suitable for indoor or chemical environments. Prices are generally lower than metal trays but vary by size and brand .
Factors Affecting Price
• Material: Stainless steel and aluminum trays are more expensive than galvanized steel or plastic.

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Type: Ladder trays for heavy power cables cost more than perforated or wire mesh trays for lighter loads.

• Length and Width: Longer and wider trays increase material cost.

• Accessories: Bends, tees, reducers, and supports are priced separately and can significantly affect total cost.

• Standards Compliance: Trays meeting DIN EN 61537, IEC, or NEC standards may carry a premium due to certification and quality assurance .
Typical Price Range
• Hot-dip galvanized ladder tray (2.4 m): Prices typically range from $30 to $80 per section, depending on width and load capacity .

• Wire mesh tray: Approximately $25 to $70 per 2-meter section, depending on gauge and width .

• Plastic or halogen-free trays: Around $15 to $50 per 2-meter section, depending on size and brand .
Recommendations
• For industrial or heavy-duty installations, ladder or wire mesh trays are preferred for strength and ventilation.

• For lightweight or indoor applications, plastic or perforated trays offer cost savings and corrosion resistance.

• Always consider fittings and installation hardware in the total budget, as these can add 20–30% to the overall cost. By evaluating the type, material, and installation requirements, you can select a cable tray system that balances cost, durability, and compliance with electrical standards .
