ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Fiber Optic Cable Junction Box Termination Company

Overview

Our technicians are experienced in single and mass fusion splicing as well as mechanical, terminations, connectorization and polishing.

Key Takeaways

Leading companies providing fiber optic cable junction box termination solutions include Eks Fiber Optic System, Technetix, Netceed, Fibertronics, and CRXCONEC.Key Companies and Solutions

Eks Fiber Optic System offers the FIMP XL splice and terminal boxes, designed for splicing and distribution. Their products include removable splice trays, couplings, pigtails, and cable glands, suitable for indoor fiber wall terminals and FTTx applications, maintaining proper bend radius for fibers and supporting multiple cable ports . Technetix provides the FTB product family for both indoor and outdoor applications, including single and multi-dwelling units. Their FTB Max can terminate up to 168 fibers in a compact design, supporting splicing, patching, and splitter integration. The FTB Speed and FTB Connect offer flexible installation options with modular access and long service life . Netceed supplies a wide range of fiber termination boxes, including compact wall-mounted enclosures, modular rack units, splice boxes, and riser solutions. They provide IP-rated options for indoor and outdoor use and offer technical support to optimize fiber termination configurations . Fibertronics specializes in termination boxes for joining fiber optic cables and pigtails, providing secure housing for splices and easy distribution. Their solutions are widely used in telecommunications and network equipment rooms, with options for custom configurations . CRXCONEC manufactures high-performance fiber distribution and terminal boxes for indoor and outdoor cross-connection. Their products include DIN rail wall-mounted ODFs, FTTH boxes, and high-density distribution frames. CRXCONEC boxes comply with international standards, including RoHS and REACH, and support multiple fiber core capacities from 2 to 288 cores .

Considerations for Selection

When choosing a fiber optic junction box termination company, consider:

• Application type: Indoor vs. outdoor, wall-mounted vs. rack-mounted.

• Fiber capacity: Number of fibers to terminate and manage.

• Flexibility: Support for splicing, patching, and splitter integration.

• Durability: IP rating, material quality, and compliance with standards.

• Technical support: Availability of guidance for installation and network optimization.
These companies provide comprehensive solutions for fiber optic network deployment, ensuring secure, organized, and efficient termination of fiber optic cables.
