ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Five Rings Cable Management Stand

Overview

Leviton Five-Ring Horizontal Cable Managers are ideal for patch-cord distribution at the front of industry-standard 19-inch equipment racks, cabinets, and hinged wall-mounted brackets. Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, is a law that requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. 5U height and five vertical rings provide optimal cable management while saving valuable rack space. Legrand® feed-through cable management panels provide organized management of patch cables horizontally, vertically, and from front to back on 19 inch EIA distribution. Our 5-Ring Cable Management Ducts are an easy-to-use cable management solution for horizontal network racks.
