ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Haiti Cable Tray Type

Overview

What is a cable tray ? ABB offers a number of different types of cable tray for use in a range of different applications and environments.

Key Takeaways

Cable trays in Haiti are available in various types including ladder, perforated, PVC, stainless steel, and galvanized, with multiple sizes and accessories to suit industrial, commercial, and residential applications.Types of Cable Trays
• Ladder Cable Trays: Feature two longitudinal side rails connected by rungs, ideal for power cables that generate heat, providing maximum ventilation and support .

• Perforated Cable Trays: Made from a single sheet of metal with perforations, offering both protection and ventilation for cables .

• Solid Bottom Cable Trays: Constructed from a single sheet of metal, providing excellent protection for control, communication, and non-heat producing cables .

• PVC Cable Trays: Lightweight and corrosion-resistant, suitable for environments where metal trays may degrade .

• Stainless Steel and Galvanized Cable Trays: Offer high durability and corrosion resistance, widely used in industrial and outdoor applications .
Materials
• Galvanized Steel: Strong, corrosion-resistant, suitable for heavy-duty applications .

• Stainless Steel: Provides superior corrosion resistance and longevity .

• Fiberglass: Non-conductive and corrosion-resistant, ideal for chemical or wet environments .

• PVC: Lightweight, cost-effective, and resistant to moisture .

Standard Dimensions

Cable trays in Haiti are manufactured in standard lengths of 2440mm, 2500mm, and 3000mm, with heights ranging from 50mm to 200mm and widths from 100mm to 900mm . These dimensions allow flexibility for different cable loads and installation spaces.

Accessories and Configurations

• Elbows: Horizontal and vertical for directional changes.

• Tees and Crosses: For joining multiple tray sections at 90° angles.

• Reducers: Connect trays of different widths.

• Covers: Solid or louvered tops for additional protection against dust, sunlight, and accidental contact .

• Installation Accessories: Splice plates, clamps, brackets, and hangers for secure mounting .

Applications

Cable trays in Haiti are used for:

• Electrical power distribution

• Communication and data cabling

• Industrial and commercial wiring systems

• Environments requiring corrosion resistance or ventilation for heat-producing cables

Advantages

• Organized cable management and enhanced safety

• Improved airflow and cooling for heat-producing cables

• Easy installation and maintenance

• Space optimization and durability in harsh environments

Manufacturers and Suppliers

Prominent suppliers in Haiti include Brilltech Engineers Pvt. Ltd. and Jeetmull Jaichandlall (P) Ltd., offering customized solutions, expert guidance, and adherence to international standards . They provide a wide range of cable tray models, materials, and accessories to meet diverse project requirements.
