ZITHA TECH SPECIALTY CABLES (Pty) Ltd

High-density data center cabling system 800mm deep in stock

Overview

Optimise your networking with 27U 800mm x 800mm cabinets. Ideal for high-density cabling with 19" adjustable profiles and load ratings up to 800kg. Choose from glass or mesh doors. Fast UK delivery and bulk pricing available at Comms Express. For data centers aiming to reduce deployment time, pre-terminated MPO cabling systems from GETEKnet offer a plug-and-play solution. These systems allow quick installation, minimize errors, and improve network performance. The 800mm depth provides ample space for mounting deep hardware while maintaining. To meet escalating demands for higher speed, greater capacity, and reduced latency, pre-terminated plug-and-play high-density fiber cabling offers a future-proof solution for seamless migration to 40G, 100G, 400G, and beyond. While 100G connections were still feasible with single fibers, 400G already requires 8 parallel fibers per direction. Our datacel 27U 800 x 800mm Data Cabinet/Rack is a versatile 800 mm wide rack designed to accommodate a load of up to 600kg. The 19” Floor. FIBERSTAMP's AI 800G / 1.

Data Center High-Speed Cabling Solution

High-Density Backbone for Reliable, High-Speed Inter-Rack Connectivity Featuring FHX® high-speed fiber platform and Base-8/12 cabling system, this solution delivers pre-terminated compact cable

High-Density Fiber Cabling in Data Centers:

Learn how HFCL''s high-density fiber cabling solutions help data centers handle 330% bandwidth growth, support 800G networks, and improve cooling efficiency. Discover MPO fiber cabling best practices

Our Core Specializations: Fiber Optic Infrastructure: High-density fusion splicing and backbone installation for seamless, high-speed data transmission.

Cable Assemblies for High-Density Data Center Racks

Optimize high-density data center racks with Romtronic''s custom cable assemblies—fiber, copper, and hybrid solutions designed for performance and airflow efficiency.

Key Methods to Enhance Data Center Capacity with FS High-Density

Enhance data center capacity planning with FS high-density fiber cabling. Discover key strategies like fiber cassettes, enclosures, and server cabinets to optimize space, improve efficiency, and support

Mastering Ultra High Density Cabling: Challenges,

Modern cabling solutions provide better scalability and efficiency, but higher cable density comes with key risks, especially in high-performance data

AI 800G / 1.6T Data Center MPO Fiber Cabling Solution for Next-Gen

By integrating high-density MPO fiber cabling with optimized hardware and structured management components, this solution helps data center operators support evolving high-speed network demands

Data Center Cabling & Infrastructure | Hubbell Premise Wiring

Your one-stop shop for all your high-density data center infrastructure needs, from copper and fiber cables to structured cabling, patch cords, and more. Our infrastructure products and solutions are

New High-Density Solutions for AI Networks and Hyperscale Data

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Bothell, WA, November 19, 2025 — Leviton today introduced a new range of fiber optic cabling and connectivity solutions specifically designed for high-density hyperscale and AI networks. Also
