How much does a mobile power distribution box cost

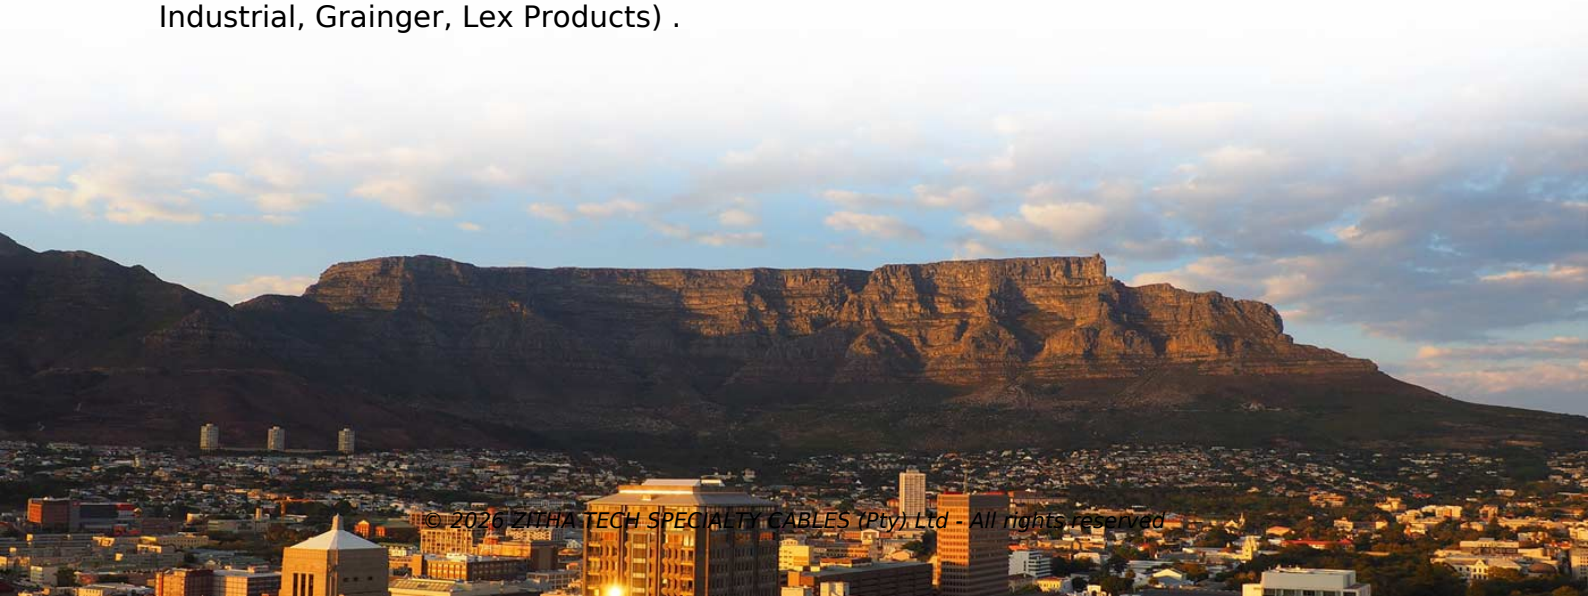

Overview

Amazon.com: Power Distribution Box PortablePREMIUM CONSTRUCTION POWER DISTRIBUTION BOX: Crafted by WESTERN, the 6506TLSX Temp power box features a Temporar.

Key Takeaways

Mobile power distribution boxes typically range from around $50 for small 20–30A units to over $16,000 for high-capacity 800A three-phase systems.Typical Price Ranges
• Small portable units (20–50A, single-phase): $50–$400. These are compact boxes suitable for RVs, small construction sites, or temporary outdoor events, often including 1–6 outlets with GFCI protection (Home Depot, Amazon) .

• Mid-range units (50–200A, single or three-phase): $700–$4,000. These include ruggedized temporary power boxes with multiple outlets, twist-lock or straight-blade receptacles, and sometimes built-in breakers for construction or event use (Global Industrial, Grainger, Lex Products) .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• High-capacity or specialized units (200–800A, three-phase): $4,000–$16,000+. These are designed for industrial, film, or large-scale event applications, often with multiple circuits, feed-through capabilities, and heavy-duty enclosures (Lex Products, Larson Electronics) .

Factors Affecting Price

• Amperage and Phase: Higher amperage and three-phase units cost significantly more than single-phase, lower-amperage boxes.

• Number and Type of Outlets: More outlets, GFCI protection, and twist-lock configurations increase cost.

• Portability and Enclosure: Rugged, weatherproof, stackable, or wheeled enclosures add to the price.

• Brand and Certification: Units from Lex, Walther, or Larson with UL listing or OSHA compliance are priced higher due to safety and reliability standards.

• Accessories: Some boxes include meters, breakers, or feed-through capabilities, which can increase the total cost.

Examples

• Lex 50A Pagoda Jr.: $1,779–$2,019, weather-resistant with multiple GFCI duplex outlets .

• Grainger 50A Temporary Power Box: $769–$959, single-phase, portable, twist-lock or U-ground options .

• Larson Electronics 25 kVA Temporary Power Distribution: $15,770–$18,571, 1-phase or 3-phase, multiple duplex outlets, heavy-duty industrial use .

• Walther Electric 50A Single Phase PDU: $1,103–$1,270, stackable and UL-listed for job-site use .

Summary

For a complete set of mobile power distribution boxes, prices vary widely depending on capacity, phase, and features. Small portable units suitable for RVs or light construction start around $50–$400, mid-range construction/event boxes are $700–$4,000, and high-capacity industrial or film production units can exceed $16,000. Choosing the right box depends on your amperage needs, number of outlets, portability, and safety certifications.
