How to open the optical module plastic box

Overview

From the Home screen, press Settings>System Settings>Optical Module Settings. Optical module settings screen Follow the onscreen instructions. The Applied BiosystemsTM SeqStudioTM Genetic Analyzer with SeqStudioTM Data Collection Software is a fluorescent dye-labeled genetic analysis system using capillary electrophoresis technology. It enables both sequencing and fragment analysis applications without the need to switch polymer type or. Never look directly into an optical module or the ends of optical fibers. Preparation Before Installation 1. Product Inspection Whether the packaging is in an anti-static bag. Equipped with a powerful servo motor, a new Neon LED panel calibrated to the solar light spectrum for natural and uniform illumination, and a 12-bit ADC, the RB Focus eXcalibur is your ultimate ally for remotely capturing Flats frames. We can see this is a MTP/MPO-12 optic so it is for 12 fiber multimode cables.
