ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Impact-resistant distribution boxes for smart buildings

Overview

Modern distribution boxes use premium-grade ABS or PC materials that ensure long-term durability and resistance to impact, corrosion, and high temperatures. Modular designs allow for easy installation and flexible configurations for different environments. Our solutions enable short planning and realization times and allow optimized. Industrial enclosure designed for telecommunications and other industrial applications, offering high protection and durability. Small-scale distributors, with protection class IP65, 1 Row, 3 available. summarized:Distribution boxes—also called junction or power distribution enclosures—are fundamental building blocks of resilient electrical systems. Ground fault circuit interrupters (GFCIs) turn off power if there is a problem, so you are less likely to get shocked.
