Internet access is disabled when connected to a switch

Overview

Try rebooting your router and device to see if it goes back to normal if the Wi-Fi isn't working. Turn off the Wi-Fi router, shut down the Switch, and wait at least 30 seconds before restarting both. Ensure that your ISP isn't facing a broader network outage. Select AutomaticModo automáticoAutoModo automático (recommended for most home networks) to automatically obtain IP address settings from the router. Your Internet Service Provider and. This article will list a few simple steps about how to do a check on the switch when the switch has no Internet access and try to solve the problem. Check LED lights. Whether your Switch won't connect to Wi-Fi, you keep seeing an error code, or you run into disconnection issues when trying to play a certain Switch game online, these problems can be frustrating. Below, we'll walk you through several steps to fix Nintendo Switch internet problems when your system.
