Ireland Fiber Cable Fault

Overview

Our troubleshooting tool is here to check for an issue, run quick diagnostics and get things back on track. If we can't fix it together, you can log a fault and we will have our engineers. Virgin Media operates its own cable broadband network (based on DOCSIS hybrid fibre-coaxial technology) primarily in urban and suburban areas. SIRO (a joint venture between Vodafone and ESB) provides gigabit FTTH connectivity in selected towns and cities, used by Vodafone, Sky, Digiweb, and others. Our Network Operations Centre will review the fault or outage raised by your broadband service provider and in most cases, the issue will be resolved quite quickly. Download to check service status and run speed tests User reports indicate problems with Roblox since 12:34 AM EDT. □□ No unusual activity – currently stable. Based on aggregated user reports. No regional irregularities detected at the moment.
