Local power distribution box pxt

Overview

PXT2 series protective rib distribution box PXT series, in line with GB7251. 3 standard, the main incoming component is dual power supply, molded case (leakage) circuit breaker or small (leakage) circuit breaker, and the outgoing switch is small (leakage) circuit breaker. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. PXT distribution box is used in power plants, substations, factories and mines, high-rise buildings and other power users. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. The power distribution cabinet is composed of secondary power distribution devices such as cabinets, switches (circuit breakers), protection. Our intelligent and mechanical boxes in the area of power and data distribution offer modular solutions for all voltage levels and at the same time optimize functionality - for maximum efficiency with maximum safety.
