ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Mexico Explosion-proof Distribution Box Manufacturing

Overview

Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise.

Key Takeaways

Mexico has several suppliers and manufacturers capable of providing custom explosion-proof distribution boxes with ATEX and IECEx certifications.Key Manufacturers and Suppliers

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

1. Atex Delvalle Atex Delvalle specializes in custom-made stainless steel (AISI 304L & 316L) and GRP enclosures for hazardous areas. Their products include junction boxes, terminal boxes, and large enclosures suitable for Zones 1 and 2 (gas) and Zones 21 and 22 (dust). They offer IP66-rated enclosures, same-day shipping for stocked items, and fully customized dimensions for ATEX and IECEx certified applications . 2. EX Industries EX Industries provides explosion-proof and flameproof enclosures for Class I Division 1 and Class II Division 1 hazardous locations. Their enclosures are made from cast aluminum or 316 stainless steel, with NEMA and IP ratings for corrosion and dust protection. They also offer fully populated ATEX-certified control panels and engineering services to certify final assemblies . 3. Hexlonex Hexlonex offers IECEx and ATEX certified explosion-proof distribution boxes for Zone 1 and Zone 2 applications. Their enclosures are designed for durability and compliance with international hazardous area standards . 4. CZ Electric Co., Ltd. Although headquartered in China, CZ Electric has a global presence and provides explosion-proof isolation switches, safety switches, and MCB boxes. Their products comply with IEC and ATEX standards, and they have agents in multiple countries, which may include Mexico for distribution and support .

Considerations for Custom Orders
• Material Selection: Stainless steel (304L/316L) for corrosion resistance or GRP for lightweight applications.

• Certification: Ensure ATEX, IECEx, or local Mexican standards compliance for hazardous areas.

• Ingress Protection: IP66 or higher is recommended for dust and water resistance.

• Customization: Many suppliers offer tailored dimensions, pre-assembled terminal blocks, and control panel integration.

• Delivery and Support: Check for local agents or distributors in Mexico to reduce lead times and ensure after-sales support.
Finding Local Manufacturers

For a broader list of custom box manufacturers in Mexico, platforms like Ensun provide directories of B2B suppliers, including companies specializing in industrial and electrical enclosures . This can help identify local partners capable of producing custom explosion-proof distribution boxes with required certifications. By selecting a manufacturer with certified products, customization capabilities, and local support, you can ensure safe and compliant installation in hazardous environments.
