ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Moroccan high-voltage busbar manufacturer

Overview

Busbar Trunking Manufacturers & Factory for the Morocco marketAs a premier manufacturer supplying the Morocco market, our busbar trunking systems are engin.

Key Takeaways

Copper braided busbars for high-voltage applications are manufactured and supplied in Morocco by specialized local companies.Key Manufacturer in Morocco

One notable source for high-voltage busbars in Morocco is Chhajed Copper Brass, which produces copper braided busbars designed for high-power electrical connections. These busbars are made from high-conductivity ETP copper wire, available in widths from 0.07 mm to 0.30 mm, and can be finished with exposed, tinned, or silvered wraps depending on application requirements . The company offers customization for contact zones, solderless connections, and tubular carriers, ensuring compatibility with transformers, generators, UPS systems, circuit breakers, and other power transmission equipment .

Applications and Features
• High-voltage support: Suitable for busbars to busducts, generators, isolators, switches, and MCCBs.

• Custom design: Engineers assist in selecting the appropriate copper braid busbar based on current rating, temperature rise, and layered requirements.

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Durability: Designed to withstand harsh environmental conditions and high electrical loads.

• Flexibility: Copper braided busbars provide mechanical flexibility while maintaining high conductivity, which is essential for high-voltage and high-current applications . Additional Considerations

While Moroccan manufacturers focus on copper braided busbars, international companies like Intercable Automotive Solutions specialize in high-voltage busbars for electric vehicles and industrial applications, offering advanced design, simulation, and automated production capabilities . These solutions may complement local suppliers if highly customized or large-scale production is required. For sourcing high-voltage busbars in Morocco, contacting local suppliers such as Chhajed Copper Brass is recommended to discuss specifications, customization, and delivery options .
