No-drill rooftop cable tray support

Overview

An “H” frame constructed of Unistrut and 8-H Base P bases are used to support ductwork or cable trays on flat roofs. Weight distribution is engineered to 2 PSI. Press Home for minimum width and End for maximum width. When used in combination with B-Line series strut systems or pipe hanger systems, Dura-Blok supports offer a total solution for rooftop applications such as solar PV mounting systems, piping, HVAC equipment, roof top walkway, ducts, conduit and cable tray supports. Space. When it comes to installing equipment on rooftops, the method of support you choose can significantly impact the longevity, efficiency, and maintenance of both the equipment and the roof itself. Non-penetrating rooftop supports, as offered by MIRO Industries, present several compelling advantages.
