PDU Power Distribution Unit Cold Aisle Waterproof Manufacturer

Overview

Power Distribution Unit (PDU) for Data Centers Increasing rack power density both in the data center and at the network edge means that reliable power dist.

Key Takeaways

Integra PDU, nVent Enlogic, and PowerFlo Solutions are leading manufacturers offering customizable PDUs suitable for cold aisle deployment and potentially waterproof configurations.Integra PDU

Integra specializes in custom and bespoke PDUs for data centers, colocation facilities, and edge sites. Their products are constructed with powder-coated mild steel and high-quality components, ensuring durability and reliability in demanding environments. Integra can design PDUs that integrate with energy management and monitoring systems, and they support both volume orders and single-unit bespoke solutions. While standard waterproof ratings are not explicitly listed, their custom manufacturing capabilities allow for environmentally protected designs suitable for cold aisle deployment .

nVent Enlogic and Hoffman

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

nVent offers PDUs under the Enlogic and Hoffman brands, providing a range of basic, intelligent, and industrial PDUs. These units are designed for data center and industrial applications, with options for custom configurations. nVent's solutions are known for robust construction and integration with monitoring systems, which can be adapted for cold aisle environments. For waterproof or ruggedized requirements, nVent can provide enclosures and protective options suitable for harsh conditions .

PowerFlo Solutions

PowerFlo Solutions manufactures vertically integrated critical power products, including PDUs, RPPs, and STS systems for data centers. They focus on customizable and reliable power distribution, which can be tailored for cold aisle deployment. Their manufacturing approach allows for bespoke solutions that meet specific environmental and operational requirements .

Marway

Marway provides custom, smart, and basic PDUs for industrial, military, aerospace, and OEM applications. Their expertise in integrating power conversion, conditioning, and custom controls makes them a potential option for specialized waterproof or cold aisle PDUs, particularly in industrial or high-reliability settings .

Recommendations
• For fully customized waterproof PDUs in cold aisle environments, Integra PDU and nVent Enlogic/Hoffman are strong candidates due to their flexible manufacturing and integration capabilities.

• For industrial or specialized applications, Marway can provide tailored solutions with advanced power conditioning.

• PowerFlo Solutions is ideal for data centers requiring vertically integrated critical power systems with bespoke configurations. These manufacturers can provide consultation and design services to ensure PDUs meet environmental protection, monitoring, and energy management requirements for cold aisle deployment.
