ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Price of Armored Optical Cable Stripping Tools

Overview

This high-quality tool is perfect for slitting and rotary stripping of 4 - 10mm armored fiber optic cable jackets.

Key Takeaways

Armored optical cable stripping machines typically range from $200 to over $5,000 depending on automation, capacity, and precision features.Overview of Pricing
• Manual and Compact Strippers Small, portable armored cable strippers designed for multi-core cables or light-duty use are available on platforms like Amazon and Fiber-Life.com. Prices for these tools generally range from $200 to $500. These models are lightweight, ergonomic, and suitable for technicians handling occasional fiber installations, offering precision cutting for cables 4mm–10mm in diameter .

• Semi-Automatic Machines Machines with adjustable blades, pneumatic tools, and multi-angle cutting capabilities for medium-scale operations typically cost between $1,000 and $3,000. These units provide higher efficiency, durability, and versatility for multi-core or armored cables, often including features like blade rotation, cross and longitudinal cuts, and compact portability .

• Fully Automatic Industrial Machines High-end armored optical cable stripping machines, such as those used in large-scale fiber network installations, can exceed $5,000. These machines often include multiple units for cable pay-off, cutting, stripping, and coiling, with computer-controlled interfaces for precise length, speed, and tension management. They are designed for high-volume production, capable of processing long armored cables quickly and accurately .
Factors Affecting Price
• Automation Level: Fully automatic machines cost significantly more than manual or semi-automatic models.

• Cable Type Compatibility: Machines that handle armored, multi-core, or high-fiber-count cables are priced higher.

• Precision and Speed: High-speed stripping with minimal fiber damage increases cost.

• Build Quality: Industrial-grade materials and robust mechanical structures add to the price.

• Additional Features: Integration with MES systems, adjustable blade settings, and multi-function capabilities (cutting, stripping, winding) can increase cost .
Purchasing Options
• Alibaba: Offers a wide range of armored fiber optic stripping machines with customizable specifications; prices vary and often require direct inquiry for quotes .

• Amazon: Provides smaller, portable armored cable strippers suitable for technicians and DIY use, with prices typically under $500 .

• Specialized Suppliers: Companies like Fiber-Life.com sell precision slitting tools for professional fiber optic installations, priced around $200–$400 for single units . For large-scale or industrial deployments, contacting suppliers directly is recommended to obtain accurate pricing, shipping, and customization options.
