Price of Cable Tray Support Fixing Methods

Overview

A Guide to Installing and Supporting Electrical Cable TraysThis guide covers the critical steps, from selecting the right electrical cable tray and perform.

Key Takeaways

Cable tray supports and fixing accessories typically range from $5 to $50 per piece, depending on type, material, and load capacity.Overview of Cable Tray Supports and Fixings

Cable tray supports and fixing accessories are essential for structurally securing cable trays in commercial and industrial installations. Common components include:

• Cable Tray Hangers: Support horizontal runs from ceilings or overhead structures, including trapeze hangers, center supports, and wall-mounted brackets .

• Support Brackets: L-brackets, U-brackets, and cantilever arms that attach trays to walls or ceilings .

• Couplers and Connectors: Join tray sections in straight or angled configurations .

• Suspension Rods and Cross Arms: Provide additional support for long spans or heavy cable loads .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Fixings: Nuts, bolts, clamps, and expansion screws used to secure trays and accessories . Materials commonly used include galvanized steel, stainless steel, aluminum, and fiberglass-reinforced plastic (FRP), which influence both durability and cost .

Typical Price Ranges

• Light-duty supports and brackets: $5–$15 per piece, suitable for small cable loads or short spans .

• Medium-duty supports and hangers: $15–$30 per piece, for standard commercial installations with moderate cable weight .

• Heavy-duty supports and brackets: $30–$50+ per piece, designed for industrial applications with high cable loads or long spans .

• Fixings (nuts, bolts, clamps): $0.50–$5 per item, depending on size and material .

Factors Affecting Price

• Material: Stainless steel and FRP are more expensive than galvanized steel or aluminum.

• Load Capacity: Supports rated for higher weights cost more.

• Design Complexity: Adjustable or custom brackets and hangers are pricier than standard L-brackets.

• Supplier and Brand: Premium brands like Legrand, Schneider Electric, or Phoenix Contact may charge higher prices .

• Quantity and Bulk Orders: Large orders often reduce per-piece cost.

Installation Considerations

• Supports are typically spaced every 4–8 feet depending on tray type and load .

• Proper installation ensures structural integrity, cable protection, and compliance with safety standards .

• Accessories like couplers, dividers, and grounding kits may add to the overall system cost . By considering these factors, you can estimate a budget for cable tray supports and fixings for your project while ensuring safety and durability.
