Price of Fiber Optic Cable Puller Frame

Overview

Explore a wide range of our Fiber Optic Cable Puller selection. Find top brands, exclusive offers, and unbeatable prices on eBay.

Key Takeaways

Fiber optic cable puller frames typically range from several hundred to a few thousand dollars, depending on type, brand, and mounting options.Overview of Fiber Optic Cable Puller Frames

Fiber optic cable puller frames are essential for stabilizing and mounting cable pullers during installation. They can be pole-mounted, trailer-mounted, or floor-mounted, providing secure support for hydraulic, electric, or gas-powered pullers . The frame ensures safe and efficient cable pulling, preventing tipping or misalignment during operation.

Types of Puller Frames
• Pole-Mounting Frames: Designed to attach pullers to wooden or metal poles. For example, the Condux Fiber Optic Puller Pole Mounting Frame securely attaches the puller to a pole for stability .

• Trailer-Mounted Frames: These frames are integrated into mobile trailers, such as the Condux Open Style Fiber Optic Cable Puller Trailer, which includes built-in mounts for multiple pullers and accessories .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Floor or Stand Mounts: Used for stationary setups, often with adjustable height and secure mounting sockets to accommodate different puller models .
Pricing Considerations
• Basic Pole-Mount Frames: Typically start around $500–$1,500, depending on material and compatibility with specific pullers.

• Trailer-Mounted Systems: Complete trailer setups with frames, mounts, and optional power packs can range from $10,000 to $25,000 or more, depending on included equipment and capstan options .

• Custom or Heavy-Duty Frames: For industrial or long-haul installations, prices can exceed $5,000 for specialized mounting frames alone.
Purchasing Tips
• Contact authorized distributors for exact pricing, as online listings often require a quote due to customization options .

• Consider whether you need a standalone frame or a complete puller package, as bundled systems may offer better value.

• Check for compatibility with your puller model, capstan size, and power source (hydraulic, electric, or gas) to ensure safe operation . In summary, while exact prices vary, basic fiber optic cable puller frames start in the low hundreds, while trailer-mounted or fully equipped systems can cost tens of thousands, depending on configuration and included accessories. For precise pricing, contacting suppliers like Condux or Linemen-Tools is recommended .
