ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Price of Galvanized Fireproof Cable Tray

Overview

Fire Resistant Cable Tray for Sale – 2026 Find top-rated fire resistant cable trays for sale with customizable options. Compare prices, MOQs, and supplier.

Key Takeaways

Galvanized fireproof cable trays are available from approximately $0.32 to $12 per unit, depending on size, material, and customization options.Price Range and Factors

The cost of galvanized fireproof cable trays varies widely based on material, size, load capacity, and fire resistance rating. Standard hot-dip galvanized steel trays suitable for industrial and commercial use typically start at $0.32 per unit for small, basic models and can go up to $12 per unit for larger or custom perforated designs . Bulk orders often require a minimum order quantity of 10 units . Prices may also differ depending on whether the tray is customized, anodized, or powder-coated for enhanced durability .

Material and Performance Considerations

Galvanized steel is preferred for its strength, corrosion resistance, and fireproof properties, making it suitable for harsh environments and high cable loads . Other materials like aluminum or FRP are lighter or more corrosion-resistant but may have different price points. The fire rating (e.g., 60, 90, 120 minutes) and compliance with standards such as UL, IEC, or NFPA 70 can also influence cost .

Supplier Options
• Alibaba: Offers a wide range of galvanized fireproof cable trays with customizable options and wholesale pricing starting at $0.32 .

• Made-in-China: Factories like Shandong Xuanlin Metal Materials Co., Ltd. provide heavy-duty industrial trays with competitive pricing and support for OEM/ODM orders .

• Lazada: Retail options for smaller quantities or consumer-level installations, including stainless steel and PVC-coated trays .
Additional Considerations

When budgeting, consider installation, maintenance, and lifecycle costs, as galvanized trays offer long-term durability and fire protection, which can reduce replacement and repair expenses over time . Shipping terms such as FOB, CIF, DDU, or DDP may also affect the final cost, especially for international orders . In summary, expect to pay between $0.32 and $12 per unit for galvanized fireproof cable trays, with the final price influenced by size, material grade, fire rating, customization, and supplier terms.
