Price of Libyan ladder-type cable trays

Overview

Choose from our selection of ladder cable trays, including cable and hose trays, heavy duty open cable and hose carriers, and more.

Key Takeaways

Ladder-type cable trays typically cost around $1–$15 per unit internationally, depending on material, size, and quantity, though Libya-specific prices may vary.General Pricing Overview

Ladder-type cable trays are commonly made from hot-dip galvanized steel, stainless steel, or aluminum. International suppliers list prices as follows:

• Hot-dip galvanized steel trays: Starting at roughly $1 per unit for bulk orders (MOQ ~100 units) on platforms like Alibaba .

• Standard length: 2.4 meters (8 feet), with widths ranging from 25 mm to 600 mm and heights from 50 mm to 600 mm .

• Fittings and accessories: Sold per piece, prices vary depending on type (elbows, tees, reducers) and material .
Factors Affecting Price in Libya
• Import Costs: Shipping, customs duties, and local taxes can significantly increase the final price.

• Material Choice: Stainless steel trays are more expensive than galvanized steel, while aluminum is lightweight but may cost more depending on availability.

• Quantity: Bulk orders reduce per-unit cost, while small orders may be priced higher.

• Local Suppliers: If local distributors exist, prices may be slightly lower due to reduced shipping costs, but availability may be limited.
Estimation

Based on international pricing, a 2.4-meter galvanized ladder-type cable tray could cost approximately $10–$15 per unit in Libya after including shipping and import fees. Stainless steel or custom-sized trays may cost $20 or more per unit. For accurate pricing, it is recommended to contact local electrical suppliers or importers in Libya, providing specifications such as material, length, width, and quantity. This ensures the quote reflects current market conditions and shipping costs.
