Price of Mesh Cable Tray Manufacturing Process

Overview

Looking for the best cable tray machine price? Discover top-rated, factory-direct options with competitive pricing.

Key Takeaways

Mesh cable tray bases are typically fabricated from high-quality steel or stainless steel using cutting, welding, and surface treatment processes, with prices starting around ₹100 per meter in India.Manufacturing Method

Material Selection: Mesh cable trays are made from galvanized steel, stainless steel, or hot-dip galvanized steel, chosen based on environmental conditions and corrosion resistance requirements . Cutting and Shaping: Tray components are cut to size using laser cutting machines or shearing tools, ensuring precision and minimal material waste . Welding and Assembly: Components are assembled using automated or spot welding equipment, creating a durable mesh structure. Weld seams are smoothed to prevent cable damage during installation . Surface Treatment: To enhance durability, trays undergo galvanization, powder coating, or other corrosion-resistant finishes, extending their lifespan in harsh environments . Customization: Mesh trays can be fabricated in various widths, heights, and grid sizes, and can include complex connectors like elbows, tees, and reducers for flexible routing . Quality Control: Measurements and assembly are checked against design specifications to ensure compliance with load-bearing and safety standards .

Price

India Market Pricing:

• Shubhlaxmi Enterprise: Starting at ₹100 per meter

• Mahalaxmi Electricals: Starting at ₹100 per meter

• S.K. Weldedmesh Private Limited: Starting at ₹105 per meter Prices vary depending on material type, tray dimensions, surface finish, and order quantity. Bulk orders and OEM/ODM customization may affect the final cost . Global Suppliers: Companies like BESCA in China and JLH Electric offer custom mesh cable trays with various profiles, load capacities, and finishes suitable for industrial, commercial, and residential applications .

Summary

Mesh cable tray bases are lightweight, ventilated, and versatile, produced through a combination of material selection, precision cutting, welding, and surface treatment. Pricing starts at approximately ₹100 per meter in India, with variations based on material, size, and customization options. These trays are widely used in data centers, offices, hospitals, and industrial sites for efficient cable management .
