ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Price of T-joint cable tray

Overview

Choose from our selection of cable tray connectors, including cable and hose trays, steel formable cable and hose trays, and more.

Key Takeaways

The price of a T-joint cable tray fitting varies widely depending on material, size, and manufacturer, typically ranging from $10 to $100 or more per unit.Types and Materials

T-joint cable tray fittings are available in several materials, each affecting durability, corrosion resistance, and cost:

• Galvanized Steel or Stainless Steel: Common for industrial and commercial installations, offering high strength and corrosion resistance. These are compatible with standard ladder or perforated cable trays and are designed for quick installation .

• PVC-Based Thermoplastic (e.g., Metatray): Lightweight, electrically insulating, and corrosion-resistant, suitable for chemical, petrochemical, and outdoor applications. These often meet fire safety standards (UL94 V0) and UV resistance requirements .
Factors Affecting Price
• Size and Tray Compatibility: T-joints are manufactured to fit various cable tray widths and heights. Larger or custom sizes generally cost more.

• Material Quality: Stainless steel and specialized PVC with fire and UV resistance are more expensive than standard galvanized steel.

• Supplier and Brand: Prices vary by manufacturer and region. Premium brands or custom-fabricated fittings may carry higher costs.

• Quantity and Packaging: Some suppliers sell T-joints individually, while others sell in pairs or bulk, affecting unit price .
Typical Price Range
• Standard galvanized steel T-joints: Approximately $10–$40 per unit.

• Stainless steel T-joints: Approximately $30–$80 per unit.

• PVC or thermoplastic T-joints: Approximately $15–$60 per unit, depending on size and fire/UV ratings . For exact pricing, it is recommended to contact suppliers directly such as Kim Long Trading, JLH Cable Tray, or Pemsa distributors, as prices fluctuate based on material, size, and order volume.
