ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Price of Wall-Mounted Network Cabinets for Low Voltage Distribution Boxes

Overview

Browse a wide selection of network cabinets featuring locking doors, adjustable shelves, and cable management.

Key Takeaways

Wall-mounted network cabinets for low voltage distribution typically range from $100 to $800 depending on size, material, and features.

Typical Price Ranges
• Small indoor cabinets (4RU–8RU, basic steel or plastic enclosures): $100–$250, suitable for home or small office setups with low voltage distribution panels .

• Medium cabinets with swing-out or reinforced doors (8RU–12RU, steel, locking doors, PCI compliance): $250–$500, ideal for small data closets, retail, or edge computing applications .

• Large or outdoor-rated cabinets (IP65–IP66, multi-service distribution boards, heavy-duty construction): $500–$800+, designed for industrial or outdoor installations with enhanced protection and operator safety .
Factors Affecting Price
• Size and Rack Units (RU): Larger cabinets with more RU capacity cost more due to additional material and space for equipment.

• Material and Build Quality: Steel cabinets with reinforced doors, swing-out sections, or fiberglass-reinforced polyester for outdoor use are more expensive than basic indoor enclosures .

• Protection Rating: Cabinets with higher IP ratings (IP65–IP66) for dust and water resistance increase cost, especially for outdoor or industrial environments .

• Features: Locking doors, swing-out access, cable management, thermal management (fans), and integrated power strips add to the price .

• Brand and Supplier: Premium brands like Legrand, Kendall Howard, and Chatsworth typically charge more but offer higher reliability, compliance, and accessories .
Where to Buy
• Amazon: Offers small to medium low voltage panel boxes for $100–$250, suitable for indoor use .

• Discount Low Voltage: Provides a wide range of wall-mount cabinets, including 4RU–12RU options with accessories and cable management, prices vary by configuration .

• Legrand: Specializes in swing-out and vertical wall-mount cabinets with locking doors and PCI compliance, typically $250–$600 depending on size and features .

• Lucy Electric and DirectIndustry: Offer industrial-grade indoor and outdoor low voltage cabinets with multi-service distribution boards, IP66 protection, and modular designs, generally $500–$800+ .
Summary

For home or small office setups, expect to pay $100–$250 for a basic wall-mounted cabinet. For medium commercial or edge computing applications, prices range $250–$500, and for industrial or outdoor installations, costs can reach $500–$800+ depending on size, protection rating, and additional features. Choosing the right cabinet depends on your equipment size, environmental conditions, and security requirements.
