Rwanda FC Adapter Low Loss

Overview

FC Round Adapters What temperatures can the FC adapter be used in?

The FC FC Connector Adapter (FC-FC) Fiber Connector Adapters are receptacle-type adapter.

Key Takeaways

A low-loss FC adapter in Rwanda provides precise, stable fiber connections with minimal signal loss, suitable for singlemode and multimode fibers.Overview of FC Adapters

An FC (Ferrule Connector) adapter is designed to connect two FC fiber optic connectors securely, ensuring low insertion loss and high mechanical stability. These adapters use a threaded coupling mechanism and a ceramic alignment sleeve to maintain precise optical alignment, which is critical for high-performance telecom, industrial, and laboratory networks . They are compatible with singlemode (SM), multimode (MM), polarization-maintaining (PM), and PMZ fibers, making them versatile for various applications .

Key Features
• Low Optical Loss: Typical insertion loss is ≤ 0.2 dB, ensuring minimal signal degradation .

• High Precision Alignment: Ceramic sleeves provide repeatable, vibration-resistant connections .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Durable Construction: Threaded metal or high-quality ABS housings withstand repeated insertions and harsh environments .

• Standards Compliance: Conforms to IEC 61754-13 and CECC 86 115-801, ensuring compatibility and reliability .

• Versatile Applications: Ideal for telecom infrastructure, data centers, ODF panels, test and measurement setups, and industrial optical systems .
Availability in Rwanda

In Rwanda, Shopit is a trusted dealer of network and fiber optic adapters, offering a variety of FC adapters with fast delivery and customer support. Customers can inquire about low-loss FC adapters and check for discounted prices through their online store .

Additional Options
• Hybrid Adapters: FC-to-SC or LC-to-FC adapters are available for flexible system interconnectivity .

• Singlemode vs Multimode: Ensure the adapter matches your fiber type to maintain low loss and optimal performance . Using a low-loss FC adapter ensures stable, high-quality optical connections, reduces signal degradation, and supports reliable network performance in Rwanda's telecom and industrial environments.
