Sierra Leone 144-core optical fiber junction box

Overview

The 144 cores dome type fiber optic splice closure come with 2 inlets and 4 outlets, which is including 6 splice trays, each accommodating 24 fibers. The fiber optic joint box body is crafted from reinforced plastic, a material renowned for its high strength and corrosion. Leonecom is a neutral fiber optic operator working as a private partner with the Government of Sierra Leone to oversee the national fiber optic backbone and ancillary infrastructure. This fiber optic junction box can complete functions such as introducing, fixing, and stripping protection of optical cables, fusion splicing and protection of optical fibers, storage, parking, and routing management of tail fibers; Provide fiber fusion function and non skipping fiber distribution. Horizontal fiber joint enclosure mechanical sealing design can splice 144 core fibers for FTTH network. Theinput and output are on the same side.
