ZITHA TECH SPECIALTY CABLES (Pty) Ltd

View all wn numbers for Huijue fiber optic switches

Overview

View results and find huijue gtn300 fiber optic switch datasheets and circuit and application notes in pdf format.

Key Takeaways

WWN numbers for Huijue fiber optic switches can be retrieved using switch commands or bulk WWN lookup tools, as they are factory-set identifiers unique to each switch.Using Switch Commands

Most enterprise-class fiber optic switches, including Huijue devices, assign a 64-bit WWN to each switch or chassis. This WWN is factory-set and cannot be changed by the end user. To view it, you typically use a command similar to show wwn or switchshow depending on the switch OS. This command displays the WWN along with the factory serial number and may also show the 24-bit Fibre Channel address used for communication . On Huijue switches, you can access the management interface (CLI or web GUI) and look for the WWN under system or chassis information.

Bulk WWN Lookup

If you have multiple switches, you can use bulk WWN lookup tools. For example, WintelGuy.com provides a tool where you can paste a list of WWNs or output from commands like switchshow to retrieve vendor and device information . This is useful for auditing or inventory purposes when managing many Huijue switches.

Vendor Documentation

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Huijue's official documentation and product pages provide information on their fiber optic components and network equipment, but they do not publicly list WWNs for all devices . Therefore, the most reliable method is to query each switch directly via CLI or management software.

Summary

To view all WWN numbers for Huijue fiber optic switches:

• Access the switch CLI or management interface.

• Run the command to display WWN (e.g., show wwn or equivalent).

• Record the WWNs for inventory or licensing purposes.

• Optionally use bulk lookup tools to process multiple WWNs efficiently . This approach ensures you have accurate, up-to-date WWN information for all Huijue switches in your network.
