ZITHA TECH SPECIALTY CABLES (Pty) Ltd

What is the price range for cable trays in Dubai

Overview

Enquire Now CABLEMATE range of products include cable trays, cable Trunkings, cable ladder with all fittings and accessories.

Key Takeaways

Cable trays in Dubai typically range from AED 50 to AED 500 per meter, depending on material, type, and load capacity.Price Overview

The cost of cable trays in Dubai varies widely based on material, design, and duty rating:

• Material: Pre-galvanized steel, hot-dip galvanized steel, stainless steel, aluminum, and powder-coated finishes are available, with stainless steel and HDG trays generally costing more due to corrosion resistance and durability .

• Type: Ladder trays, perforated trays, wire mesh trays, channel trays, and trough trays have different prices. Ladder trays for heavy-duty applications are more expensive than wire mesh or channel trays used for lighter loads .

• Duty Rating: Light, medium, heavy, and extra-heavy duty trays affect pricing. Heavy-duty trays designed for industrial or infrastructure projects cost more due to higher load capacity and structural strength .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Customization: Custom sizes, thicknesses, and project-specific fabrication (bending, punching, powder coating) can increase the price .
Typical Price Range
• Light-duty trays: AED 50–120 per meter

• Medium-duty trays: AED 120–250 per meter

• Heavy-duty trays: AED 250–400 per meter

• Extra-heavy duty or stainless steel trays: AED 400–500+ per meter These prices are indicative and may vary depending on supplier, quantity, and delivery terms. Suppliers like NMSS, BonnGulf, Metar, and Gooxoom provide a wide range of cable trays and accessories across Dubai and the UAE, often offering competitive pricing for bulk orders and project-based procurement .
Additional Considerations
• Accessories: Reducers, bends, covers, and supports are additional costs that can affect the total project budget .

• Installation: Some suppliers offer installation services, which may be included in bulk project quotes.

• Environmental factors: Outdoor or coastal installations may require HDG or stainless steel trays, which are more expensive but provide long-term durability . For accurate pricing, it is recommended to request a quotation from local suppliers specifying the tray type, material, length, and duty rating to get a precise cost for your project.
