VALDINOX has been designing and manufacturing wire mesh cable trays, supports, and easy-installation accessories since 1982, leveraging decades of technical experience to produce durable and reliable cable management systems suitable for industrial and commercial applications . Their products are known for quality construction and ease of installation, making them a preferred choice for local projects. • Local Support and Availability: Choosing a manufacturer with local distribution or service ensures faster delivery and technical support.

• Compliance and Standards: Ensure the trays meet international or regional electrical and safety standards for industrial use.
Alternative Options

If local Comoros manufacturers cannot meet specific project requirements, international suppliers like Cablofil (Legrand) and MP Husky offer globally recognized wire mesh cable trays with proven reliability, fast shipping, and extensive product lines . These brands are widely used in data centers, industrial facilities, and infrastructure projects.
