Which trademark category does a network server rack belong to

Overview

Goods and services always belong to a certain category, also known as the Nice classes. They are not abstract but relate precisely to these Nice classes to which they belong.

Key Takeaways

In this installment, we're covering Trademark Class 9, which includes electrical, scientific, and computer-related goods. Prior to registration, each good or service in a trademark application must be classified in its appropriate class. They are not abstract but relate precisely to these Nice classes to which they belong. Businesses often need to register in.
