ZITHA TECH SPECIALTY CABLES (Pty) Ltd

World s second largest optical module manufacturer

Overview

The latest ranking of the TOP10 global optical module suppliers. A few days ago, LightCounting, a well-known market research organization in the optical.

Key Takeaways

Coherent (Finisar) is the world's second largest optical module company.

In 2023, Coherent, which acquired Finisar, ranked as the second largest global optical module supplier, following Innolight, which held the top position . Coherent has a strong presence in the optical communication market, particularly in telecommunications, and has historically been a major player in high-speed optical transceivers and modules used in data centers and network infrastructure .

Market Context

The optical module industry has seen significant growth due to the increasing demand for high-speed data transmission, cloud computing, and AI-driven applications. Leading companies focus on products such as 100G, 200G, 400G, and 800G optical modules, serving both data center and telecom markets . Coherent (Finisar) maintains a strong portfolio in these segments, particularly in coherent modules and high-speed transceivers.

Global Competitors

The top global optical module suppliers in 2023 include:

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Innolight – Ranked 1st, leading in datacom optical modules and high-speed 400G/800G products .

• Coherent (Finisar) – Ranked 2nd, strong in telecom optical modules and coherent solutions .

• Huawei – Ranked 3rd, with a focus on domestic and international telecom markets .

• Cisco (Acacia) and Marvell – Other notable overseas competitors . Chinese companies have increasingly dominated the market, occupying seven of the top ten positions in 2023, reflecting the growing competitiveness of domestic optical module manufacturers .
Summary

Coherent (Finisar) holds the position of the world's second largest optical module company, with a strong focus on high-speed optical modules for telecom and data center applications. Its ranking reflects both its historical market presence and ongoing contributions to the global optical communication industry .
